Office Action Summary	Application No. 10/589,638	Applicant(s) TO, YUICHIRO	
	Examiner Khanh B. Pham	Art Unit 2166	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 November 2010.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 16-18, 20-26, 28-34, 36-42 and 44-46 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 16-18, 20-26, 28-34, 36-42 and 44-46 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. **Claims 16-18, 20-26, 28-34, 36-42, 44-46** are rejected under 35 U.S.C. 102(b) as being anticipated by Morohashi (US 2001/0030827 A1), hereinafter “**Morohashi**”.

As per claim 1, Morohashi teaches an information processing apparatus comprising:

- “a networking device that communicates with an external apparatus” at Fig. 6;
- “a storage that stores an album of a plurality of content data and a transfer log indicating whether each of the plurality of content data has been transferred to the external apparatus” at [0124]-[0131]; and Fig. 5;
- “a processing unit configured to identify certain content data from the plurality of content data of the album when the transfer log indicates that certain content data has never been transferred to the external apparatus” at [0154]-[0170];
- “to control a display of information about the album, to start a transfer of the certain content data to the external apparatus, when the album has been

Art Unit: 2166

selected and the certain content data has never been transferred to the external apparatus" at [0154]-[0170] and Fig. 8;

- "and to update the transfer log when the networking device transfers the certain content data to the external apparatus" at [0147].

As per claim 17, Morohashi teaches the apparatus of claim 16, wherein "when the networking device receives identification information identifying the external apparatus from the external apparatus, the processing unit identifies the transfer log based on the identification information" at [0071], [0135].

As per claim 18, Morohashi teaches the apparatus of claim 16, wherein "the processing unit is further configured to determine albums including the certain content data and to determine other content data held in the albums for a transfer to the external apparatus" at Fig. 8.

As per claim 20, Morohashi teaches the apparatus of claim 16, wherein "the processing unit is further configured to cause a display device to display information about albums including the certain content data and, upon a selection of the albums in response to the displayed information, to transfer other content data from the selected albums to the external apparatus" at [0094]-[0096] and Figs. 5, 8.

As per claim 21, Morohashi teaches the apparatus of claim 20, wherein “the processing unit is further configured to cause the display device to display the information about the albums based on the transfer log of the certain content data” at [0094]-[0096] and Figs. 5, 8.

As per claim 22, Morohashi teaches the apparatus of claim 16, wherein “the processing unit is further configured to determine albums having only content data that has never been transferred to the external apparatus and to determine content data held in the albums to be transferred to the external apparatus” at [0154]-[0170] and Fig. 8.

As per claim 23, Morohashi teaches the apparatus of claim 22, wherein “the processing unit is further configured to determine the content data to be transferred to the external apparatus based on the transfer log” at [0154]-[0170] and Fig. 8.

As per claim 24, Morohashi teaches the apparatus of claim 16, wherein “the processing unit is further configured to cause a display device to display information about albums having only content data that has never been transferred to the external apparatus and, upon a selection of the album in response to the displayed information, to transfer content data from the selected albums to the external apparatus” at [0094]-[0096] and Figs. 5, 8.

As per claim 25, Morohashi teaches the apparatus of claim 24, wherein “the processing unit is further configured to cause the display device to display the information about the albums based on the transfer log” at [0094]-[0096] and Figs. 5, 8.

As per claim 26, Morohashi teaches the apparatus of claim 16, wherein “the processing unit is further configured to acquire the transfer log from the external apparatus” at Figs. 6A-C.

As per claim 28, Morohashi teaches the apparatus of claim 16, wherein “the certain content data is defined by a song” at [0004].

As per claim 29, Morohashi teaches the apparatus of claim 16, wherein “the networking device transfers the certain content data to the external apparatus based on a determination whether the certain content data has previously been transferred to the external apparatus” at [0154]-[0170] and Fig. 8.

As per claim 30, Morohashi teaches the apparatus of claim 29, wherein “the networking device transfers the certain content data to the external apparatus when the determination indicates that the certain content data has not previously been transferred to the external apparatus” at [0154]-[0170] and Fig. 8.

Claims 31-34, 36-42, 44-46 recite similar limitations as in claims 16-18, 20-26, 28- 30 and are therefore rejected by the same reasons.

Response to Arguments

3. Applicant's arguments with respect to claims 6-18, 20-26, 28-34, 36-42, 44-46 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Art Unit: 2166

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khanh B. Pham whose telephone number is (571) 272-4116. The examiner can normally be reached on Monday through Friday 7:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hosain Alam can be reached on (571) 272-3978. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
